## About the Institute

Priyadarshini Institute of Technology and science, Chennai was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies Empowering students to be tomorrow's leaders

## About the Department

If you are looking for a well-balanced and innovative teaching-learning atmosphere in MECHANICAL Engineering, then you are at the right place! The Department of MECHANICAL Engineering strives for excellence in teaching and learning and professional development. we are proud to have start-of-the-art laboratories and dedicated academic and technical staff to support our academic program. Our department and its experienced staff offer practiced related education, preparing our students for a successful and rewarding career. Needless to say that about twenty percent of our students from our last two graduating batches have qualified in GATE for higher studies and its testimony of our academic excellence. Our graduates are exceptionally well prepared for challenging careers, handling major projects and being on the fasttrack towards new heights in thier careers. So why wait ? Come and join us now and build the Nation!

## Topics covered

1. Stages in smart manufacturing. Minimizing Six big losses in manufacturing with Industry 4.0,
2. Smart sensors; smart sensors ecosystem
3. Machine Salient features and Critical Subsystems of a Smart Machine,
4. Sensing for Manufacturing Process in IIoT, Block Diagram of an IoT Sensing Device
5. Sensing for Manufacturing Process in IIoT, Block Diagram of an IoT Sensing Device

## **PROGRAM REPORT**

Name of the event: A Two-Week certification program on “SMART MANUFACTURING”

Date: 22/08/2022 to 03/09/2022

Resource person : Mr. L.PRAKASA RAO, ASSOCIATE PROFESSOR, DEPT OF MECH

Contact No: 9492125170

Email ID: prakasaraolanka@gmail.com

Name of the Coordinator: Mr. V.Anil Kumar, Assistant professor.

Dept. of Mechanical Engineering

Number of students attended: 94

VENUE: Seminar hall, PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE**, Chintalapudi organized certification program on “ SMART MANUFACTURING ” For B.Tech students by the resource person Mr. L.PAKASA RAO .The smart factory reduces manual handling by leveraging automation. The factory becomes more efficient because production can be real-time responsive in terms of materials, sourcing, production, and human resources.. Totally 94 students were participated on this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

## **Objectives**

- To apply knowledge of smart manufacturing systems' components in the context of Industry 4.0
- To understand the concepts of smart machines and smart sensors
- To understand and apply the concepts of IoT connectivity to Industry 4.0
- To understand the concepts of Digital Twin and apply Machine Learning and Artificial Intelligence concepts in Manufacturing
- To understand the concepts of Metaverse.

## **Learning Outcomes**

- Learn about smart manufacturing systems' components and can handle it more effectively in context of Industry 4.0
- Learn about the smart machines and smart sensors
- Apply IoT to Industry 4.0 and they are able to make a system tailor-made as per requirement of the industry
- Learn about concepts of Digital Twin and able to apply Machine Learning and Artificial Intelligence concepts in Manufacturing
- Learn the concepts of AR/VR and Metaverse platform

## About the Institute

Priyadarshini Institute of Technology and science, Tenali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff.

This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

## About the Department

Electrical and Electronics Engineering deals with the innovation, design, development and industrial applications of electrical and electronics systems, components and devices

There is a wide variety of domains to which it applies. Among the most the well-known fields, just to name a few are, Electrical Power Generation, Transmission and Distribution, Control Systems, Power Systems, Communications, Robotics, Electronics and Nanotechnology.

The Department of Electrical And Electronics Engineering (EEE) Program was started in the year of 2007 with an intake of 60 affiliated to JNTUK and the department has one post graduation course (M. Tech) in Power Systems with an annual intake of 18 affiliated to JNTUK which was started in the year 2013.

The department has well equipped laboratories with standard quality equipments. The department is catering to the needs of the industry by training students to make valuable contribution.

The Department is endeavoring to produce highly trained and capable engineers, who can take up the challenges of the real world.

## Topics covered

1. Mixed-signal design in VLSI (Very Large Scale Integration) refers to the integration
2. This approach combines analog components, which process
3. Analog and Digital Integration: In mixed-signal design,
4. Analog circuits handle tasks like amplification, filtering, and signal conditioning,
5. Mixed-signal ICs are used in a wide range of applications, including telecommunications, data converters

## **OBJECTIVES: -**

1. VLSI, mixed-signal design refers to the design of integrated circuits that include both analog and digital circuits on a single chip.
2. The term "mixed-signal" refers to the circuits containing both analog and digital elements.
3. Mixed-signal circuits are used in a wide range of applications, including telecommunications, data conversion, and control systems.
4. The design of mixed-signal circuits is a complex process that requires a deep understanding of both analog and digital circuit design.
5. It involves the use of specialized tools and techniques to ensure that the analog and digital circuits work together seamlessly.

## **LEARNING OUTCOMES: -**

1. Mixed-signal design in VLSI (Very large scale Integration) refers to the integration of both analog and digital circuitry on the same semiconductor chip or integrated circuit (IC).
2. This approach combines analog components, which process continuous signals, with digital components, which process discrete signals.
3. Here are some key points about mixed-signal design:

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE**, Chintalapudi organized certification program on “HR ANALYTICS OVERVIEW” For MBA students by the resource person Dr.SK. HR analytics is a powerful tool that can help organizations improve their HR processes and outcomes. By collecting and analyzing data related to the people in an organization, HR analytics can help make data-driven decisions, measure the impact of HR initiatives, and shape the future of work. Totally 68 students were participated on this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

## **Objectives**

- To provide better insight into each of the human resource processes, gathering related data and then using this data
- To make informed decisions on how to improve these processes.
- To The main objective of HR analytics is to gain valuable insights from data about the people who work for you
- To increase their effectiveness through decision-making based on these insights, and what realistic goals may be set for them."

## **LEARNING OUTCOMES**

- HR analytics helps in finding the gap areas where employees are finding difficulty in meeting goals and targets.
- HR professionals can use various methods like employee surveys, team assessments, exit and stay interviews to find out the reason for attrition and map out strategies to retain them

## About the Institute

Priyadarshini Institute of Technology and Science, established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

## About the Department

This area of ECE engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of ece engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in ece engineering and qualified experienced faculties and advanced equipment with well facilities.

Ece engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, VLSI, Embedded system Communication Engineering, etc.

ECE engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as communications system

The lab can undertake testing and consultancy works as well. Recently, the department has published papers in journal and conference proceedings

## Topics covered

1. Functions of Antenna, Comparison between antenna and transmission line
2. Potential function and the electromagnetic field
3. Half power beam width and first null beam width polarisation
4. Experssion for electric field from two, three and N-element arrays
5. Helical geomtry transmission radiation mode partictical design consideration

**Number of students attended: 77**

**VENUE:** COMMUNICATION LAB, PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE** , Chintalapudi organized certification program on “ANTENNA WAVE PROPAGATION” For B.Tech students by the resource person **K.MADHUSUDHANRAO**. Devices called antennas are made to transmit and receive radio waves. They are employed in many different systems, including radar and navigation systems as well as wireless communication. Totally 77 students were participated on this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

## Objectives

- radiation Mechanism – single wire, 2 wire, dipoles, Current Distribution on a thin wire antenna. Antenna Parameters - Radiation Patterns, Patterns in Principal Planes
- Main Lobe and Side Lobes, Beamwidths, Polarization, Beam Area, Radiation Intensity, Beam Efficiency, Directivity
- Gain and Resolution, Antenna Apertures, Aperture Efficiency, Effective Height, illustrated Problems.
- Retarded Potentials, Radiation from Small Electric Dipole, Quarter wave Monopole and Half wave Dipole
- Current Distributions, Evaluation of Field Components, Power Radiated, Radiation Resistance, Beam widths, Directivity, Effective Area and Effective Height
- . Natural current distributions, fields and patterns of Thin Linear Center-fed Antennas of different lengths, Radiation
- Resistance at a point which is not current maximum. Antenna Theorems – Applicability and Proofs for equivalence of directional characteristics, Loop Antennas

## Course Outcomes (COs)

- Define various antenna parameters
- Analyze radiation patterns of antennas CO3 Evaluate antennas for given specifications.
- Illustrate techniques for antenna parameter measurements
- To understand the various applications of antennas CO6 Discuss radio wave propagation

To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

## About the Department

The Department of Computer Science and Engineering, established in 2007, is one of the most dynamic departments of Priyadarshini Institute Of Technology and Science.

I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge.

Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events through various clubs and societies like III cell, EDC cell and EPC club, TechComm Professional Society, IEI, IETE to showcase their talents under non – technical, technical and cultural forums. Not only at national level, a good amount of international exposure is also offered for students and faculty in various countries like Spain, USA, Belgium, Sharja, Soth-Korea and Sri Lanka. I believe that my team consisting of CSE students, staff and faculty is capable of doing wonders.

It has become a symbol for excellent placements which showcases our academic and extracurricular strengths. I invite you to the Computer Science and Engineering Department whether you are looking for an undergraduate or post graduate program. My team is confident that your stint with Priyadarshini Institute Of Technology and Science will definitely make you outshine with a successful and accomplished career.

- Develop proficiency in programming languages for machine learning
- Gain a strong foundation in mathematics and statistics
- Master the art of data preparation and preprocessing
- Develop effective model evaluation and selection techniques

## **LEARNING OUTCOMES: -**

- Foundational Understanding of Machine Learning Concepts
- Proficient Implementation of Machine Learning Algorithms
- Critical Evaluation and Selection of Models
- Application of Machine Learning to Real-World Problems
- Ethical Considerations in Machine Learning Practices

## About the Institute

Priyadarshini Institute of Technology and science, Guntur was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff.

This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

## About the Department

This era of civil engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of civil engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in civil engineering and qualified experienced faculties and advanced equipment with well facilities.

Civil engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, Structural Engineering, Transportation Engineering, etc.

Civil engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as buildings, bridges, road, rail, airports and harbours.

The lab can undertake testing and consultancy works as well. Recently, the department has published papers in journal and conference proceedings

## Topics covered

1. Getting started About Autodesk & auto cad, cad history Definition
2. Objective property and layer management
3. Drawing Creation, Workflow and organization
4. Tools for creating key geometry Core design tools
5. Creating drawing sheets in model space annotation

## **PROGRAM REPORT**

**Name of the Event:** A Two weeks Certificate Program on “**auto cad programming**”

**Date:** 18/07/2022 to 02/08/2022

**Resource Person:** - Dr.M. MURALI KRISHNA, PROFESSOR, Dept of CIVIL,NEC.

**Name of the coordinator:** Mr. CH.LAKSHMI NAGA BALA, Assistant professor

**Dept. of civil engineering.**

**Number of students attended:** 59

**Venue:** - C-LAB, PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY

PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY, Chintalapudi, organized certificate program on “**auto cad programming**” for B. Tech civil students by the resource person

Dr.M. MURALI KRISHNA, Bootstrap is a free, open-source front-end development and also the knowledge about the cad software for designing purpose it is very useful for the present days.

The totally the 59 students are participating the certification program for the auto cad the completion of program they were able to understand the following objectives and learning outcomes for programming

**OBJECTIVES: -**

- To help the student to attain competency in preparation of engineering drawings as per principles of planning using a suitable CAD software through various teaching learning experiences.
- The work will be used to 2D& 3D drawings.
- Computer with specification suitable for relevant CAD software with any suitable CAD Software.
- To enhance the student's knowledge and skills in engineering drawing and to introduce drafting packages and commands for computer aided drawing and modelling.

**LEARNING OUTCOMES: -**

- Perform basic commands of any suitable CAD software to draw 2D drawings.
- Interpret the conventions, signs and symbols from a given drawing.
- Prepare line plans of residential and public buildings using principles of planning.
- Prepare submission and working drawing from the given requirement for Load Bearing and Framed structures
