About the Institute

Priyadarshini Institute of Technology and science, Chennai was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

About the Department

This era of civil engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of civil engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in civil engineering and qualified experienced faculties and advanced equipment with well facilities.

Civil engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, Structural Engineering, Transportation Engineering, etc. Civil engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as buildings, bridges, road, rail, airports and harbours.

The lab can undertake testing and consultancy works as well. Recently, the department has published papers

Topics covered

1. Applications of Manu commands
2. Editing and creating dimensions
3. Editing structure data, drawing reusing
4. Designing with lines adding standard feature data for hole and slots
5. Import and IGES and IGS files for project documentation

OBJECTIVES: -

- The process of modelling and designing in STAAD.Pro can be summarized into the following general workflow process, which is suggested inherently by the on-screen organization of the tabs within the part
-
- Learn the usage of any fundamental software for design
- Create geometries using pre-processor
- Analyse and interpret the results using post processor
- Design the structural elements.

LEARNING OUTCOMES: -

- Model the geometry of real-world structure Represent the physical model of structural element/structure
- Perform analysis
- Interpret from the Post processing results
- Design the structural elements and a system as per IS Codes

About the Department

Electrical and Electronics Engineering deals with the innovation, design, development and industrial applications of electrical and electronics systems, components and devices

There is a wide variety of domains to which it applies. Among the most the well-known fields, just to name a few are, Electrical Power Generation, Transmission and Distribution, Control Systems, Power Systems, Communications, Robotics, Electronics and Nanotechnology.

The Department of Electrical And Electronics Engineering (EEE) Program was started in the year of 2007 with an intake of 60 affiliated to JNTUK and the department has one post graduation course (M. Tech) in Power Systems with an annual intake of 18 affiliated to JNTUK which was started in the year 2013.

The department has well equipped laboratories with standard quality equipments. The department is catering to the needs of the industry by training students to make valuable contribution.

The Department is endeavoring to produce highly trained and capable engineers, who can take up the challenges of the real world.

Topics covered

1. It depends on your field if you are from power side then you must have excellence
2. power related software like ETAP and if you work in electrical construction
3. If you are in designing field then you should know about ELECTRICAL DESIGN SOFTWARE like AUTOCAD ELECTRICAL and Finite element analysis
4. Here are a few others that I can think of but don't know a whole lot about: Panel Designer
5. I hope this gives you some more options to check out my best advice is never stop learning no matter how big or small.

College Code:X2, Recognized by Govt of A.P.

Approved by AICTE, New Delhi & Affiliation to JNTU Kakinada.

OBJECTIVES: -

1. ETAP is one of the best software to study power system.

2. Few advantages are

Short circuit study.

You can design rupturing capacity of HV, MV and LV boards (switchgear) using ETAP.

3. Load flow study.

4. Load flow is also an important study one can do in ETAP to estimate running and maximum loading on the plant and aspect to be carried out for different modes of operation. Like, with GRID only or DG only or both.

5. Relay coordinations.

Transformer sizing.

Motor stability.

Arc flash study.

Cable scheduling.

Solar system analysis and so many other studies too.

LEARNING OUTCOMES: -

It depends on your field if you are from power side then you must have excellence in power related software like ETAP and if you work in electrical construction then you should know AUTOCAD and other drafting softwares.

If you are in designing field then you should know about ELECTRICAL DESIGN SOFTWARE like AUTOCAD ELECTRICAL and Finite element analysis etc.

About the Institute

Priyadarshini Institute of Technology and science, Gwalior was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

About the Department

This area of ECE engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of ece engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in ece engineering and qualified experienced faculties and advanced equipment with well facilities.

Ece engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, VLSI, Embedded system Communication Engineering, etc.

ECE engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as communications system

The lab can undertake testing and consultancy works as well. Recently, the department has published papers in journal and conference proceedings

Topics covered

1. Elements of Nanoscience and Nanotechnology.
2. Fundamentals of Solid State Technology.
3. Bottom up approaches: Physical Vapor Deposition, Inert Gas Condensation, Laser Ablation,
4. X-Ray Diffraction (XRD), Small Angle X-ray scattering, Scanning Electron Microscopy (SEM)
5. Nano-electronics, Micro- and Nano-electromechanical systems (MEMS/NEMS), Nano sensors, Nano catalysts, Food and Agricultural Industry, Cosmetic and Consumer Goods, Structure and Engineering

PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE , Chintalapudi organized certification program on **NANO TECHNOLOG”** For B.Tech students by the resource person MOHAMAD.HAYATH RAJEE.

Nanotechnology has improved the design of products such as light bulbs, paints, computer screens, and fuels. Nanotechnology is helping inform the development of alternative energy sources, such as solar and wind power. Totally 90 students were participated on this training program and their completion of the program they were able to understand the following objectives and learning outcomes

Objectives

- To offer globally-relevant, industry-linked, research-focused, technology-enabled seamless education at the graduate, postgraduate and research levels in various areas of engineering & technology and applied sciences keeping in mind that the manpower so spawned is excellent in quality, is relevant to the global technological needs, is motivated to give its best and is committed to the growth of the Nation;
- To foster the creation of new and relevant technologies and to transfer them to industry for effective utilization;
- To participate in the planning and solving of engineering and managerial problems of relevance to global industry and to society at large by conducting basic and applied research in the areas of technologies;
- To develop and conduct continuing education programmes for practicing engineers and managers with a view to update their fundamental knowledge base and problem-solving capabilities in the various areas of core competence of the University;

PROGRAM OUTCOMES

- Apply principles of basic science concepts in understanding, analysis and prediction of matter at Nano scale.
- To introduce interdisciplinary subjects/concepts/ideas for interdisciplinary application of Science and engineering concepts
- To introduce advanced ideas and techniques required in emergent area of nanotechnology.
- To develop human resource with specialization in theoretical and experimental techniques required for career in academia and Nano technology driven industry.
- Engage in lifelong learning and adapt to changing professional and societal needs.

About the Department

The Department of Computer Science and Engineering, established in 2007, is one of the most dynamic departments of Priyadarshini Institute Of Technology and Science. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events through various clubs and societies like III cell, EDC cell and EPC club, TechComm Professional Society, IEI, IETE to showcase their talents under non – technical, technical and cultural forums. Not only at national level, a good amount of international exposure is also offered for students and faculty in various countries like Spain, USA, Belgium, Sharja, Soth-Korea and Sri Lanka. I believe that my team consisting of CSE students, staff and faculty is capable of doing wonders. It has become a symbol for excellent placements which showcases our academic and extracurricular strengths. I invite you to the Computer Science and Engineering Department whether you are looking for an undergraduate or post graduate program. My team is confident that your stint with Priyadarshini Institute Of Technology and Science will definitely make you outshine with a successful and accomplished career.

Vijayarshini Institute of Technology and science,
enali was established in the year 2007 with sole aim
f providing quality higher technical education to rural
ector through its dedicated and committed staff.
This opportunity made the students to become
echnologically superior and to serve the nation Attracting
he finest students by creating an overall intellectual
mosphere to train and Empower the professionals
ith global skills assigning their Legitimate place of
onor in the society and Our never ending goal in
chnology continuously challenges the concept of what's
ossible we are helping the lives of students through
ucation we have been working to bring the resources
d solutions needed for advancing education. We help
rn their vision in to reality technology that brings quality
ication to students. That's our unwavering commitment.
ake education as a tool for social change for the betterment
society. To spread education globally in the field of
eering and management using existing resources and
ologies Empowering students to be tomorrow's leaders

About the Department

If you are looking for a well-balanced and innovative teaching-learning atmosphere in MECHANICAL Engineering, then you are at the right place! The Department of MECHANICAL Engineering strives for excellence in teaching and learning and professional development. we are proud to have start-of-the-art laboratories and dedicated academic and technical staff to support our academic program. Our department and its experienced staff offer practiced related education, preparing our students for a successful and rewarding career. Needless to say that about twenty percent of our students from our last two graduating batches have qualified in GATE for higher studies and its testimony of our academic excellence. Our graduates are exceptionally well prepared for challenging careers, handling major projects and being on the fasttrack towards new heights in thier careers. So why wait ? Come and join us now and build the Nation!

Topics covered

1. Single variable optimization- multivariable optimization with equality constraints- multivariable optimization with inequality constraints.
2. Descent methods- Gradient of function.
3. Pattern search method- Rosenbrock's method of rotating coordinates- Simplex method
4. Solution of an unconstrained geometric programming,
5. basic approach in the penalty function method- interior penalty function method

PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE, Chintalapudi organized certification program on “OPTIMIZATION TECHNIQUES” For B.Tech students by the resource person **D.ROGNATH RAO**. With Optimization techniques To understand classification of optimization problem and apply classical optimization techniques apply unconstrained optimization techniques using various methods understand the characteristics and approaches of constrained optimization techniques. Totally 132 students were participated on this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

OBJECTIVES:

- To understand classification of optimization problem and apply classical optimization techniques
- To apply unconstrained optimization techniques using various methods
- To understand the characteristics and approaches of constrained optimization techniques
- To obtain optimized solutions using constrained and unconstrained geometric programming
- To understand integer programming methods

LEARNING OUTCOMES:

- Understand classification of optimization problem and apply classical optimization techniques
- Apply unconstrained optimization techniques using various methods
- Understand the characteristics and approaches of constrained optimization techniques
- Identify optimized solutions using constrained and unconstrained geometric programming.
- Understand integer programming methods
