## Objective of the Programme:-

.IVLSI, mixed-signal design refers to the design of integrated circuits that include both analog and digital circuits on a single chip

2. The term "mixed-signal" refers to the circuits containing both analog and digital elements

3.Mixed-signal circuits are used in a wide range of applications, including telecommunications

. Data conversion, and control systems

## About the Institute

Priyadarshini Institute of Technology and science, Tenali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies Empowering students to be tomorrow's leaders

## About the Department

Electrical and Electronics Engineering deals with the innovation, design, development and industrial applications of electrical and electronics systems, components and devices

There is a wide variety of domains to which it applies. Among the most the well-known fields, just to name a few are, Electrical Power Generation, Transmission and Distribution, Control Systems, Power Systems, Communications, Robotics, Electronics and Nanotechnology.

The Department of Electrical And Electronics Engineering (EEE) Program was started in the year of 2007 with an intake of 60 affiliated to JNTUK and the department has one post graduation course (M. Tech) in Power Systems with an annual intake of 18 affiliated to JNTUK which was started in the year 2013.

The department has well equipped laboratories with standard quality equipments. The department is catering to the needs of the industry by training students to make valuable contribution.

The Department is endeavoring to produce highly trained and capable engineers, who can take up the challenges of the real world.

## Topics covered

1. T Mixed-signal design in VLSI (Very Large Scale Integration) refers to the integration
2. This approach combines analog components, which process
3. Analog and Digital Integration: In mixed-signal design,
4. Analog circuits handle tasks like amplification, filtering, and signal conditioning,
5. Mixed-signal ICs are used in a wide range applications, including telecommunications, data converters

## OBJECTIVES: -

- The main uses for LT Spice are:
- Plotting circuit responses to various inputs.
- Analysing steady state conditions.
- Checking that your design look as if will work before you build it.
- There are a whole load of things you can do with LTSpice try searching for it under Analogue Devices.
- The limitation are mainly to do with the accuracy of models and the fact that real world things like connecting wires have effects.
- LTSpice is an analogue simulator but I have played with a TTL library and done some primitive “digital” simulation.

## LEARNING OUTCOMES: -

1. SPICE can be especially difficult here as the engine has not been improved that much over the years, though it is outstanding in linear time-invariant networks.
2. Other SPICE engines are especially well suited for certain kinds of analysis.
3. SPICE tools like LTSPICE from Linear Technology is extremely well behaved in switching circuits which are particularly difficult for convergence due to the many real-world nonlinearities associated with these types of circuit topologies.
4. It also does not hurt the LTSPICE performance for their power switching ICs since it is emulating a macro modeled device just for this simulator, hence accurate and very fast.

## About the Department

This area of ECE engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of ece engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in ece engineering and qualified experienced faculties and advanced equipment with well facilities.

Ece engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, VLSI, Embedded system Communication Engineering, etc. ECE engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as communications system

The lab can undertake testing and consultancy works as well. Recently, the department has published papers in journal and conference proceedings

## Topics covered

1. The IC era – MOS and related VLSI technology – Basic MOS transistors – Enhancement and depletion modes of transistor action
2. Aspects of MOS transistor threshold voltage – MOS Trans–conductance and output conductance
3. MOS and BiCOMS circuit design processes MOS layers
4. Sheet resistance concept applied to MOS transistor and inverters – Area capacitance of layers
5. Digital design using HDL Digital system design process – VLSI Circuit Design Process

## Objectives

- MOS Transistor, CMOS logic, Inverter, Pass Transistor, Transmission gate, Layout Design
- Gate Layouts, Stick Diagrams, Long-Channel I-V Characteristics, C-V Characteristics, Non ideal I-V Effect
- Static CMOS, Ratioed Circuits, Cascode Voltage Switch Logic, Dynamic Circuits, Pass Transistor Logic
- Static latches and Registers, Dynamic latches and Registers, Pulse Registers, Sense Amplifier Based Register
- Arithmetic Building Blocks: Data Paths, Adders, Multipliers, Shifters, ALUs, power and speed tradeoffs, Case Study: Design as a tradeoff.

## Course Outcomes

- Describe the fabrication process and properties of MOS devices
- Analyze the impact of scaling on MOS circuits.
- Comprehend the need of hardware description language and its features. CO4 Explain various modeling styles of architecture declaration.
- Design combinational and sequential circuits using VHDL

## About the Institute

Priyadarshini Institute of Technology and science, established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff.

This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment to make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

## About the Department

The Department of Computer Science and Engineering, established in 2007, is one of the most dynamic departments of Priyadarshini Institute Of Technology and Science.

I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge.

Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events through various clubs and societies like III cell, EDC cell and EPC club,

TechComm Professional Society, IEI, IETE to showcase their talents under non – technical, technical and cultural forums.

Not only at national level, a good amount of international exposure is also offered for students and faculty in various countries like Spain, USA, Belgium, Sharja, Soth-Korea and Sri Lanka. I believe that my team consisting of CSE students, staff and faculty is capable of doing wonders.

It has become a symbol for excellent placements which showcases our academic and extracurricular strengths. I invite you to the Computer Science and Engineering Department whether you are looking for an undergraduate or post graduate program. My team is confident that your stint with Priyadarshini Institute Of Technology and Science will definitely make you outshine with a successful and accomplished career.

## Topics covered

- Foundational Understanding of Data Science Concepts
- Proficient Data Wrangling and Preprocessing Skills
- Advanced Statistical Analysis and Machine Learning
- Data Visualization and Communication
- Real-World Application of Data Science

Name of the Event: A Two week Certificate Program on "Data Science".

Date: 18/07/2019 to 02/08/2019

Resource Person: - **Mr. T. Venkateswara Rao**, Professor, Dept of CSE.

Contact No: 8885560447

Email ID: venkateswarao5@gmail.com

Name of the coordinator: Mr. N. Rambabu, Asst Professor

Dept. of Computer Science & Engineering.

Number of students attended: 52

Venue: - COMPUTER LAB -2, PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE**, Chintalapudi, organized certificate program on "Data Science" for B. Tech CSE students by the resource person

**Mr. T. Venkateswara Rao.** Data science is an interdisciplinary field that combines domain expertise, programming skills, and knowledge of mathematics and statistics to extract meaningful insights from data. It encompasses a variety of techniques and methodologies for collecting, cleaning, analyzing, and interpreting data to solve real-world problems.

The totally the 52 students are participating the certification program for the auto cad the completion of program they were able to understand the following objectives and learning outcomes for programming

## About the Institute

Priyadarshini Institute of Technology and science, Chennai was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

## About the Department

If you are looking for a well-balanced and innovative teaching-learning atmosphere in MECHANICAL Engineering, then you are at the right place! The Department of MECHANICAL Engineering strives for excellence in teaching and learning and professional development. we are proud to have start-of-the-art laboratories and dedicated academic and technical staff to support our academic program. Our department and its experienced staff offer practiced related education, preparing our students for a successful and rewarding career. Needless to say that about twenty percent of our students from our last two graduating batches have qualified in GATE for higher studies and its testimony of our academic excellence. Our graduates are exceptionally well prepared for challenging careers, handling major projects and being on the fasttrack towards new heights in thier careers. So why wait ? Come and join us now and build the Nation!

## Topics covered

1. Apply knowledge about the nano crystalline materials their properties and defects.
2. Justify various techniques of nanofabrication.
3. Apply knowledge about the nano crystalline materials, their properties and defects.
4. Apply the tools to characterize nano materials
5. Analyze the applications of nano materials

## **PROGRAM REPORT**

**Name of the event: A Two-Week certification program on “NANO TECHNOLOGY”**

**Date: 08-07-2019 to 20-07-2019**

**Resource person : Dr. D.VENKATA RAO , PROFESSOR, DEPT OF MECH**

Contact No: 9849223327

Email ID: dvrrec@gmail.com

**Name of the Coordinator: Mr. V.Anil Kumar, Assistant professor.**

Dept. of Mechanical Engineering

**Number of students attended: 50**

**VENUE: Seminar hall, PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE**

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE**, Chintalapudi organized certification program on “NANO TECHNOLOGY” For B.Tech students by the resource person **Dr. D.VENKATA RAO**. Nanotechnology is helping to considerably improve, even revolutionize, many technology and industry sectors. Information technology, homeland security, medicine, transportation, energy food safety, and environmental science, among many others. Totally 50 students were participated on this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

## **Objectives**

- To understand the nano-structured materials and their applications.
- To gain knowledge about the nano crystalline materials, their properties and defects.
- To understand various techniques of nanofabrication.
- To identify the tools to characterize nano materials.
- To analyze the applications of nano materials
- Applications of NANO TECHNOLOGY in various fields.

## **Learning Outcomes**

- Explain about nano-structured materials and their applications.
- Apply knowledge about the nano crystalline materials, their properties and defects.
- Justify various techniques of nanofabrication.
- Apply the tools to characterize nano materials.
- Analyze the applications of nano materials.

## About the Institute

Priyadarshini Institute of Technology and science, Benali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies Empowering students to be tomorrow's leaders

## About the Department

This era of civil engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of civil engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in civil engineering and qualified experienced faculties and advanced equipment with well facilities.

Civil engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, Structural Engineering, Transportation Engineering, etc.

Civil engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as buildings, bridges, road, rail, airports and harbours.

The lab can undertake testing and consultancy works as well. Recently, the department has published papers in journal and conference proceedings

## Topics covered

1. Introduction of GIS and Electromagnetic Spectrum
2. Elements of Visual interpretation
3. Digital image processing.
4. Components and applications of GIS
5. Hydrology and water resources of land cover and Geology

**Resource Person:** - Dr. M. SATISH KUMAR, MTECH, Ph.D. PROFESSOR KHIT.

**Name of the coordinator:** Mr. K. SANGEETHA RAO, Assistant professor

Dept. of civil engineering.

**Number of students attended:** 66

**Venue:** - CAD AND CAM-LAB, PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY

PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY, Chintalapudi. organized certificate program on "auto cad programming" for B. Tech civil students by the resource person

**Dr. M. SATISH KUMAR, MTECH, Ph.D. PROFESSOR KHIT.** Bootstrap is a free, open-source front-end development and also the knowledge about the cad software for designing purpose it is very useful for the present days.

The totally the 66 students are participating the certification program for the auto cad the completion of program they were able to understand the following objectives and learning outcomes for programming

**OBJECTIVES: -**

- Introduce the basic principles of Remote Sensing and GIS techniques.
- Learn various types of sensors and platforms
- learn concepts of visual and digital image analyses
- Understand the principles of spatial analysis
- Appreciate application of GIS to Civil engineering

**LEARNING OUTCOMES: -**

- Be familiar with ground, air and satellite-based sensor platforms.
- Interpret the aerial photographs and satellite imageries
- Create and input spatial data for GIS application
- Apply GIS concepts in water resources engineering
