<b>Title of the Event:</b>	programme on plantation and preservation
<b>Event Start Date:</b>	09.08.2018
<b>Event End Date:</b>	09.08.2018
<b>Description:</b>	<p>The programme on plantation and preservation. This programme was organized by our collage NSS unit. Main aim Trees are the foremost source for producing the oxygen in environment, they help to reduce the level of CO2. The hundreds were run as private plantations intent on making a profit from the cultivation of crops, which the economy of the South depended on. The plantation system was an early capitalist venture. Unlike small subsistence farms, plantations were created to grow cash crops for sale on the market. Tobacco and cotton proved to be exceptionally profitable As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees is become one of the most important aspects today. Participate the NSS volunteers, faculty and some other students. These all members are interested and happy to participate this awareness programme.</p>

<b>Title of the Event:</b>	The awareness programme on dehydration
<b>Event Start Date:</b>	14.11.2018
<b>Event End Date:</b>	14.11.2018
<b>Description:</b>	The awareness on dehydration programme was organized by our NSS unit. The main aim is what about it. World Health Organization defines dehydration as a condition that results from the excessive loss of water and salt. A condition that occurs when the body loses too much water and other fluids that it needs to work normally. Dehydration is usually caused by severe diarrhea and vomiting, but it may also be caused by not drinking enough water or other fluids, sweating too much, fever, urinating too much, or taking certain medicines. All NSS volunteers' staff and other students participate this drive in collage near villages.

This programme involved simultaneous administration of polio drops to children less than three years of age on a single day throughout the nation. Under this programme, 2 doses of vaccines are given 4-6 weeks apart. The days on which this programme is carried out are pre-fixed and are called National Immunization Days. Pulse Polio is an immunization campaign established by the government of India to eliminate poliomyelitis (polio) in India by vaccinating all children under the age of five years against the polio virus. The project fights polio through a large-scale, pulse vaccination programme and monitoring for poliomyelitis cases NSS volunteers, faculty and some other students. These all members are interested to participate this awareness programme.</p>

<b>Description:</b>	<p>To creating awareness for new voters organized by our NSS unit. To enhance people's participation in the voting system. To create awareness to select effective people centric leaders. To ensure smooth implementation/execution of our planned activities. To get pre-election commitment from contesting candidates. In electoral systems, voter registration (or enrollment) is the requirement that a person otherwise eligible to vote must register (or enroll) on an electoral roll, which is usually a prerequisite for being entitled or permitted to vote. The rules governing registration vary between jurisdictions. In many jurisdictions, registration is an automatic process performed by extracting the names of voting age residents of a precinct from a general-use population registry ahead of election day. In contrast, in others, registration may require an application being made by an eligible voter and registered persons to re-register or update registration details when they change residence or other relevant information changes. Our NSS unit volunteers and faculty participate this awareness programme.</p>

<b>Title of the Event:</b>	The awareness programme on traffic rules
<b>Event Start Date:</b>	13.03.2019
<b>Event End Date:</b>	13.03.2019
<b>Description:</b>	<p>The awareness programme on traffic rules organized by our collage NSS unit. To educate people about the traffic rules and what precautions need to avoid road accidents. The program was intimated to create awareness about traffic rules measures so that it will benefit the society on a long run. After reaching the village volunteers met the members and gave the awareness. Traffic is formally organized in many jurisdictions, with marked lanes, junctions, intersections, interchanges, traffic signals, cones, or signs. Traffic is often classified by type: heavy motor vehicle (e.g., car, truck), other vehicle (e.g., moped, bicycle), and pedestrian. Different classes may share speed limits and easement, or may be segregated. Some jurisdictions may have very detailed and complex rules of the road while others rely more on drivers' common sense and willingness to cooperate. To participate the NSS volunteers, faculties and some other students educate the how to fallow traffic rules.</p>

<b>Description:</b>	This awareness programme on solid waste management was organized by the collage NSS unit. Mainly refers to the complete process of how to separate wet and dry waste and collecting, treating and disposing. The wastes are collected from different sources and are disposed of. It needs to be monitored so that strict regulations and guidelines. Vehicles were used to collect and transport wastes. A significant development in solid-waste treatment and disposal practices was marked by the construction of the first refuse incinerator in England in 1874. Even then, however, most of the largest cities were still using primitive disposal methods such as open dumping on land or in water. In this programme Participate the NSS volunteers, faculty and some other students. These all members are interested to participate this awareness programme.
