1. ADMINISTRATION

The administration tool (CMS) is designed and developed by Hiroto IND Technologies, a company based in Hyderabad, India, offering business solutions for education. CMS is an enterprise-scale campus management solution developed on the latest open-source technologies for both the web and mobile platforms, targeting specific roles on a campus. CMS is the next step in campus management, driven by mobility and collaboration. The software is implemented with the immediate availability of data in the required formats to ease the work of staff and management and increase transparency and accountability in administration.

PACKAGE HIGHLIGHTS

BENEFITS OF CAMU SOFTWARE

CMS software helps manage the entire system, from academics to administration, in a hassle-free manner. It provides an easy way to enroll students, monitor the attendance of both students and faculty, maintain timetables, session and final marks entries, and send messages to students and parents regarding marks, fee dues, etc., and any academic information.

2. FINANCE AND ACCOUNTS

Tally and CMS software are used for finance and accounts. Different modules are used from the software's to make the work easier. All the payments, receipts and ledgers are done in CMS software

3. STUDENT ADMISSION AND SUPPORT

CMUS is a digital tool that helps educational institutions manages the student enrollment process very easily. It lets the admissions team capture student inquiries. Check their eligibility, follow-up, collect documents, and complete the application process digitally.

The admission modules will consist of the following important sub modules:

- ✓ Admission
- ✓ Roll Number Allocation
- ✓ View Admission
- ✓ Details of the Admissions

CAMU LIBRARY

CAMU is well-equipped with all the features required for a scalable library management system used to maintain the records of the library. The software stores all the data regarding issues and returns of books borrowed by students and faculty, along with their respective submission dates, searching titles, Journals and other libraries. The burden of manual records on the librarian is reduced by the use of the CMS software tool.

4. EXAMINATION

The CMS Software tool provides very easy access to track details of examinations, including student internal and external marks, students backlog reports, results analysis, Toppers reports, etc. AL sub
