## About the Institute

Priyadarshini Institute of Technology and science, Tenali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies Empowering students to be tomorrow's leaders

## About the Department

Electrical and Electronics Engineering deals with the innovation, design, development and industrial applications of electrical and electronics systems, components and devices

There is a wide variety of domains to which it applies. Among the most the well-known fields, just to name a few are, Electrical Power Generation, Transmission and Distribution, Control Systems, Power Systems, Communications, Robotics, Electronics and Nanotechnology.

The Department of Electrical And Electronics Engineering (EEE) Program was started in the year of 2007 with an intake of 60 affiliated to JNTUK and the department has one post graduation course (M. Tech) in Power Systems with an annual intake of 18 affiliated to JNTUK which was started in the year 2013.

The department has well equipped laboratories with standard quality equipments. The department is catering to the needs of the industry by training students to make valuable contribution.

The Department is endeavoring to produce highly trained and capable engineers, who can take up the challenges of the real world.

## Topics covered

1. There so many modules to learn in Matlab
2. You must focus on tools that are most relevant to your field
3. However having some skills in Matlab is useful in all domains
4. Basic image processing (Matlab is known for superior image processing options )
5. GUI programming (helps you make small projects interesting to present)

**Name of the Event: A Two week Certificate Program on "MATLAB with Simscape Power"**

**Date: 15/10/2018 to 30/10/2018**

**Resource Person: - Ms.S.Sri Gowri, Assoc Professor, Dept of EEE.**

Name of the coordinator: Mr.M.Siva Nageswararao, Assoc professor

Dept. of Electrical & Electronics Engineering.

Number of students attended: 42

Venue: - C-LAB, PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY

PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY, Chintalapudi, organized certificate program on "MATLAB with Simscape Power" for B.Tech EEE students by the resource person Ms.Gowri ,Assoc Professor, Dept of EEE, Bootstrap is a free, open-source front-end development and also the knowledge about the cad software for designing purpose it is very useful for the present days.

The totally the 42 students are participating the certification program for the auto cad the completion of program they were able to understand the following objectives and learning outcomes for programming

## OBJECTIVES: -

1. Matlab, it's great for prototyping ideas and mathematical and statistical methods, signal processing, image processing all that.
2. It's fast in terms of coding, and fast execution if you vectorise code.
3. It's great when your Uni or Workplace pay for the licence.
4. When you're independent or working for a startup, and can't afford a licence, most of the same functionality can be found with python, NumPy, SciPy and other modules, its clunky, but you get used to it.

## LEARNING OUTCOMES: -

1. There so many modules to learn in Matlab.
2. You must focus on tools that are most relevant to your field. However having some skills in Matlab is useful in all domains. Some of them are
3. Curve fitting in Matlab.
4. Basic image processing (Matlab is known for superior image processing options )
5. GUI programming (helps you make small projects interesting to present)
6. Performing complex mathematical operations (solving differential equation, finding roots etc...)
7. Plotting data (very similar to excel, but gives user more scope to refine plotting)

## About the Institute

Priyadarshini Institute of Technology and science, Tenali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies. Empowering students to be tomorrow's leaders

## About the Department

This area of ECE engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of ece engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in ece engineering and qualified experienced faculties and advanced equipment with well facilities.

Ece engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, VLSI, Embedded system Communication Engineering, etc. ECE engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as communications system

The lab can undertake testing and consultancy works as well. Recently, the department has published papers in journal and conference proceedings

## Topics covered

1. General pupose and domain specific processor
2. ASIC, PLDs, ROM, RAM. Memory, Sensor and actuator
3. Oscillator units, real time clock, operating system
4. Shared Memory, message passing, remote procedure call and SOCKET
5. Task synchronization techniques device drivers

## **PROGRAM REPORT**

**Name of the event:** A Two-Week certification program on “EMBEDDED SYSTEM”

**Date:**10/08/2018 to 24/08/2018.

**Resource person :** GANGADHAR, ASSOCIATE PROFESSOR, Dept of ECE

Contact No: 9885796156

Email ID: gangadhaarakurathi@gmail.com

**Name of the Coordinator:**P.T BALA KRISHNA , Assistant professor.

Dept. of Electronics and communication Engineering

**Number of students attended:** 97

**VENUE:** COMMUNICATION LAB, PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE** , Chintalapudi organized certification program on “EMBEDDED SYSTEM” For B.Tech students by the resource person **GANGADHAR**. The purpose of embedded systems is to control a specific function within a device. They are usually designed to only perform this function repeatedly, but more developed embedded systems can control entire operating systems. Totally 97 students were participated on this training program and

their completion of the program they were able to understand the following objectives and learning outcomes.

### **Course Objectives**

- To introduce the Building Blocks of Embedded System
- To Educate in Various Embedded Development Strategies □
- To Introduce Bus Communication in processors, Input/output interfacing. □
- To impart knowledge in various processor scheduling algorithms. □
- To introduce Basics of Real time operating system and example tutorials to discuss on one real time operating system tool

### **Course Outcomes**

- Acquire a basic knowledge about fundamentals of microcontrollers
- Acquire a basic knowledge about programming and system control to perform a specific task.
- Acquire knowledge about devices and buses used in embedded networking
- Develop programming skills in embedded systems for various applications.
- Acquire knowledge about basic concepts of circuit emulators.
- Acquire knowledge about Life cycle of embedded design and its testing.

## About the Institute

Priyadarshini Institute of Technology and science, Tenali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies Empowering students to be tomorrow's leaders

## About the Department

The Department of Computer Science and Engineering, established in 2007, is one of the most dynamic departments of Priyadarshini Institute Of Technology and Science. I am really elated to tell that the department stands on the strength of experienced and well qualified faculty who are very dedicated to teaching and also involved in up-gradation of knowledge. Their research experience will help to cultivate the future of our students. With great demand in industry and great placement opportunities, the department stands tall and proud. Our students are not only academically sound and disciplined but they also organize various events through various clubs and societies like III cell, EDC cell and EPC club, TechComm Professional Society, IEI, IETE to showcase their talents under non – technical, technical and cultural forums. Not only at national level, a good amount of international exposure is also offered for students and faculty in various countries like Spain, USA, Belgium, Sharja, Soth-Korea and Sri Lanka. I believe that my team consisting of CSE students, staff and faculty is capable of doing wonders. It has become a symbol for excellent placements which showcases our academic and extracurricular strengths. I invite you to the Computer Science and Engineering Department whether you are looking for an undergraduate or post graduate program. My team is confident that your stint with Priyadarshini Institute Of Technology and Science will definitely make you outshine with a successful and accomplished career.

## About the Institute

Priyadarshini Institute of Technology and science, Tenali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies Empowering students to be tomorrow's leaders

## About the Department

If you are looking for a well-balanced and innovative teaching-learning atmosphere in MECHANICAL Engineering, then you are at the right place! The Department of MECHANICAL Engineering strives for excellence in teaching and learning and professional development.

we are proud to have start-of-the-art laboratories and dedicated academic and technical staff to support our academic program. Our department and its experienced staff offer practiced related education, preparing our students for a successful and rewarding career. Needless to say that about twenty percent of our students from our last two graduating batches have qualified in GATE for higher studies and its testimony of our academic excellence. Our graduates are exceptionally well prepared for challenging careers, handling major projects and being on the fasttrack towards new heights in their careers. So why wait ? Come and join us now and build the Nation!

## Topics covered

1. Prototyping fundamentals, historical development, fundamentals of rapid prototyping, advantages and limitations of rapid prototyping.
2. LIQUID-BASED RAPID PROTOTYPING SYSTEMS: Stereo lithography Apparatus(SLA): models and specifications, process, working principle,
3. Laminated object manufacturing (LOM) - models and specifications, process.
4. Selective laser sintering (SLS): models and specifications
5. Introduction to rapid tooling (RT), conventional tooling Vs RT

**PRIYADARSHINI INSTITUTE OF TECHNOLOGY & SCIENCE** , Chintalapudi organized certification program on "ADDITIVE MANUFACTURING" For B.Tech students by the resource person **Dr. A.RAMA RAO**. With additive manufacturing, you can print the assembly as a single piece, saving money and time from start to finish. With additive manufacturing you can print multiple movable parts in a single piece, potentially saving time on assembly and material. Totally 50 students were participated on this training program and their completion of the program they were able to understand the following objectives and learning outcomes.

## Objectives

- To understand the principles of prototyping, classification of RP processes and liquid-based RP systems
- To understand and apply different types of solid-based RP systems.
- To understand and apply powder-based RP systems.
- To understand and apply various rapid tooling techniques.
- To understand different types of data formats and to explore the applications of AM processes in various fields.

## Learning Outcomes

- Understand the principles of prototyping, classification of RP processes and liquid-based RP systems.
- Understand and apply different types of solid-based RP systems.
- Apply powder-based RP systems.
- Analyze and apply various rapid tooling techniques.
- Understand different types of data formats and explore the applications of AM processes in various fields.

### About the Institute

Priyadarshini Institute of Technology and science, Tenali was established in the year 2007 with sole aim of providing quality higher technical education to rural sector through its dedicated and committed staff. This opportunity made the students to become technologically superior and to serve the nation. Attracting the finest students by creating an overall intellectual atmosphere to train and Empower the professionals with global skills assigning their Legitimate place of honor in the society and Our never ending goal in technology continuously challenges the concept of what's possible we are helping the lives of students through education we have been working to bring the resources and solutions needed for advancing education. We help to turn their vision in to reality technology that brings quality education to students. That's our unwavering commitment. To make education as a tool for social change for the betterment of the society. To spread education globally in the field of engineering and management using existing resources and technologies Empowering students to be tomorrow's leaders

### About the Department

This era of civil engineering technological changes are very fast this changing world needs innovative ideas along with basic skills and knowledge of civil engineering in the passion to change the world in future to see the advanced civilization we need the basic weapons are required priyadarshini collage of engineering providing advanced knowledge in civil engineering and qualified experienced faculties and advanced equipment with well facilities.

Civil engineering is the very basic branch of engineering and said to be the mother of all other engineering branches came up only after it.

Now, it is comprises of different sub-branches such, Structural Engineering, Transportation Engineering, etc.

Civil engineers provide the technical expertise and management skills to plan, design, construct and maintain facilities such as buildings, bridges, road, rail, airports and harbours.

The lab can undertake testing and consultancy works as well. Recently, the department has published papers in journal and conference proceedings

### Topics covered

1. Introduction to BIM, architectural, construction
2. BIM infrastructure
3. BIM for plant design
4. Faculty development program in professional BIM-MEP
5. Essentials of BIM to Placements in modeling and Training

### **OBJECTIVES: -**

- This course will take you further into the world of BIM, offering a thorough insight into schedule templates and data standards. You'll also learn about different LOD definitions and what they mean for the information of model elements.
- integrate schedules and data standards into your **BIM** project. Find out about LOD specification and understand the characteristics. Sustainable solutions. Smart solutions. Optimised comfort. Comprehensive support. High-efficiency.
- Computer with specification suitable for relevant CAD software with any suitable CAD Software.
- To enhance the student's knowledge and skills in engineering drawing and to introduce drafting packages and commands for computer aided drawing and modelling.

### **LEARNING OUTCOMES: -**

- BIM professionals include architects, engineers, and construction professionals who actively apply Building Information Modelling – a highly collaborative process that allows you to plan, design, and analyse a built environment within a 3D model throughout its lifecycle.
- BIM is booming! This hot field is full of exciting opportunities for architects and engineers seeking intellectually and financially rewarding careers.
- BIM technology has reached the tipping point. More buildings are being designed in BIM than with CAD, and legislation will accelerate this in the years to come. Software developers are providing tools for integration between BIM and FM tools

Name of the coordinator: MS. K. KOMAL RAJ assistant professor, civil dept

Number of students attended: 67

Venue: - CAD AND CAM LAB, PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY

PRIYADARSHINI INSTITUTE OF ENGINEERING AND TECHNOLOGY, Chintalapudi, organized certificate program on "BIM programming" for B. Tech civil students by the resource person

DR M. RAVINDRA KRISHNAHOD & PROFESSOR, DEPARTMENT OF CIVIL ENGINEERING, KITS.

Bootstrap is a free, open-source front-end development and also the knowledge about the cad software for designing purpose it is very useful for the present days.

The totally the 67 students are participating the certification program for the auto cad the completion of program they were able to understand the following objectives and learning outcomes for programming
